Discover the Path to Sustainability with TIES- Green Audit Certification for Academic and Research Institutions

Green Audit are not merely an obligation for NAAC accreditation; they align seamlessly with the broader framework of Sustainable Development Goals. This comprehensive environmental scrutiny not only uncovers compliance gaps but also pinpoint the area for enhancing management system, all while proposing viable corrective action.

TIES, a trailblazing and professionally managed environmental research organization, stands at the forefront of this transformative wave.

With an illustrious track record encompassing 25 colleges, spanning arts, science, and professional institutions, as well as two prestigious universities in South India, TIES brings a wealth of experience to every audit it undertakes, to international standards, ensuring your journey towards environmental compliance is nothing short of exceptional.

We extend an assurance that partnering with TIES for your environmental compliance needs will yield unparalleled benefits. Join us in fostering a greener, more sustainable future.

Advantages of Green Audit at ISO Standards

- Promotes a culture of environmental responsibility within higher education institutions.
- Ensures sustainable use of resources and minimizes negative environmental impacts.
- Demonstrates commitment to international standards for environmental management (e.g., ISO 14001, ISO 50001 etc.)
- Enhances the credibility of the institution by adhering to globally recognized best practices.
- Identifies opportunities for resource efficiency and waste reduction, leading to potential cost savings and encourages the adoption of energy-efficient technologies, reducing utility expenses.
- Assesses and mitigates the carbon footprint of the institution, contributing to climate change mitigation efforts.
- Enhances the institution's reputation as a socially responsible and environmentally conscious entity.
- Makes eligible to apply for national and international awards and accreditations.

Green Audit @ ISO Standards covers:

- ENERGY
- WATER
- WASTE MANAGEMENT
- BIODIVERSITY
- OCCUPATIONAL HEALTH AND SAFETY,
